

## Free 4Sight2 software

when you purchase a PACE Pressure Controller and Control Module\*

# PACE & 4Sight2

**For a limited time, receive a free version of 4Sight2 Calibration Management software worth over \$5,500 when you purchase a Druck PACE 5000/6000 Pressure Controller and a Control Module.**

## Automate your pressure control

Druck's PACE 5000 & 6000 are the fastest and most stable pressure controllers on the market in terms of speed to setpoint. PACE Controllers also pair seamlessly with Druck's 4Sight2 Calibration Management Software to fully automate your pressure control application.

Having the ability to generate pressure at the push of a button, Druck's Calibration software solution significantly reduces calibration time and therefore downtime, allowing this time to be invested elsewhere.

\*Terms and Conditions: Purchase a Druck PACE5000 or 6000 unit with a Control Module between November 1st – 31st December 2022 and receive a free version of 4Sight2-STD licence. Order must be confirmed and purchase order must be placed within time frame.
