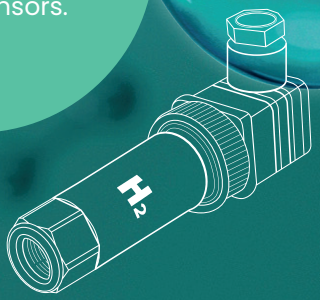
Druck
a Baker Hughes business

Hydrogen applications pose a unique challenge for pressure sensors due to the harsh nature of the medium.

Performing in hydrogen

Druck's industrial sensors perform strongly in independent hydrogen testing.

The Druck industrial pressure sensor portfolio has been leading the market for accuracy and stability for over 50 years.

In recent years, experiments have been performed to test the performance of Druck sensors when exposed to the effects of hydrogen.


Hydrogen focused product lines based on class leading UNIK5000 and 8000 Series sensors.
